

CELESTIAL TEACHERS:  
 "INCORROPTIBLE DISCOURSES (THE ECHO)"

Men often receive unknown signals from the Universe and their imagination, their sinful imagination, explains everything and they expect with their mechanical progress to discover the means of communicating with unknown beings, as though the beings of the Universe are men. Here lies the great error of scientists. They will never be able to verify what they seek as magnates of the spirit. While you, the chosen fishermen of the Lord, give explanations with regard to the signals, these great spirits of the mind cannot grasp how it is possible, by means of a phenomenon that science has rejected because it lacks positive energy, for you to achieve what science has not achieved over centuries. And they have not yet seen the main phenomena which will astound them. Such is their ignorance. I have given descriptions of types of being but, as I said, there is an infinite number of them. For the firmament is full of the wonders of Creation, unimaginable even to the most developed and super-imaginary of minds. You can see what the person who believes in the Deity gains by way of knowledge and what science loses by ignoring the Divine Energy of the Divinity. You men, with the obscure light of the path of error, do not hesitate to analyse even the meaning of God, of that Unknown Power which governs everything. And you have material man before you, of whose composition you are ignorant and will be ignorant for all times. And while you are unable to analyse the concrete, you turn to the abstract (and this because it is not subject to your perception) and you analyse it. And I ask you: "What are you analysing?" I will answer you. "You are analysing your own hollowness, because if you were not hollow you would already have analysed man". See to what a state all-powerful science has brought the contemporary life of man.

What comforts are you talking about, when man is still lacking his daily bread? And what progress do you have in mind, when you seek the death of your brother in order to increase your own wealth? And what enlightenment do you

mean, when your enlightenment simply reflects the darkness of knowledge and is a source of hatred and evil? Search your surroundings and free them from what is noxious in them. Do not concern yourselves with the discovery of gold on the planets nearest to the Earth. This new way to enrichment which you are pursuing will be your grave if you do not enlighten yourselves and if you do not open your eyes, ceasing to drain the blood of the labourer, in order to scatter it purposelessly among the planets of your choice. The planets have another mission on behalf of your Earth. Do not be deceived, for knowledge divides man into two parties. Through faith the Truth will show you which knowledge you will follow, towards the Glory of the Lord and the salvation of man.

MUSIC AS THE HARMONIZATION OF THE UNIVERSE  
 ORPHEUS:

Your Earth, my beloved brothers, is the noisiest star of the Universe. I am referring not to the natural energies of your planet, but to the words of human dynamism. Words react on the spirit and the spirit sets man's energies in motion. And man, through miscalculation, performs acts that are remote from any wish of the Divine, and so the world of matter is in continual turmoil. In the Heavens, on the other hand - that is to say, in the infinite - there are no human beings and all the other powers of the firmament and of the Celestial beings, in spite of their contrarities, are in complete harmony. Because if there was no harmony of Heaven it would be a bad look out for the worlds of the Universe and for the Earth, which would long ago have disappeared from the Celestial map.

This harmony of the Universe is maintained by means of

An undertaking may come into conflict with the Government and to suffer its defeat. Thus some of them cunningly decided to receive the baptism of ordination and to enter into its Houses as indispensable and holy representatives of the Divine Will! These people, then, became the organizers of a cliquish everlasting undertaking, in this way providing for their heirs.

The Church has never fallen so far into materiality as it has today, when its Authority has nothing in common with the Manger in which the Lord was born. Simplicity has become an involved complex for absorbing rivers of gold, so that those who encircle the Holy Sity may prosper, having secured their future without being aware of whether other brothers live on the same Planet.

I regret it, but it is necessary to speak the truth, because the imagination of those guiding the religion of Christ does not exist any more. It has totally vanished. Those now occupying the positions of their predecessors are in a strange way the nobility among the hoarders of money and preservers of the fame of the Church, which they have insensibly degraded with their daily renewed effort to conceal so many wrongs and sins that the whole Earth cannot contain them.

Duplicity is revealed through duplicity itself. If immediate measures are not taken to cleanse the treacherous and inhuman situation of the Church, the Lord in essence cannot collaborate with those guiding it.

They hold up effigies of the Lord in order to dupe the guileless. Whoever respects himself and possesses genuine faith in the Lord, will reject these Houses as unrepresentative of the name of the Divinity. If you are capable of reading the Book of Heaven, in which your predecessors are named as stems of the sacerdotal branch, you will be ashamed by their conduct. The truth is bitter, but salutary.

LIKE THE EARTH THE WHOLE UNIVERSE MOVES  
ROUND ITS AXIS

MOSES:

When, my brethren, you hear the word Universe, you at once form an indefinite idea of it. It is impossible for man to measure the Universe by means of a special measure, because the mathematical perception of man stops short at a certain point. There is no mathematical formula capable of giving this or that measurement within the Universe in a manner that is accurate. The Heavenly dome, as magical mirror, never betrays its mysteries and the relationships of its mysteries with the Earth. A person who wished by means of mathematical calculations to define the Universe as something limited would be unworthy of his labour, that is to say his name would be forgotten in his dark century.

Within the Universe there are countless stars, nebulae, galaxies, and among them all, at various points which are at enormous distances apart, are the Centres that constitute the Kingdom of the Lord. Every Spiritual World lives and acts within the immensity of the Universe.

For you the Earth is a huge mass of matter, which revolves round its axis with a speed equal to the pressure on earthly beings (third dimension).

Imagine then this endless Universe revolving, like the Earth, round its axis, in a way that is beyond your power of perception! The Universe is not one, my brethren, but seven in number. Each Universe is also a perfect formation of Worlds, which do not have any relationship with the rest of the Universe. Thus one Universe takes the place of the other according to the symmetrical time of their circulation. The axis of the seven Universes is the Creator, Himself, who can be grasped not by

he could never discover by means of earthly knowledge.

With discretion and with faith in Our Principles, not only will he acquire supra-worldly knowledge, but he will also be able to penetrate into the failings common to man and to revive him and to lead him as his guiding angel and protector.

But with your bad understanding not only are you ignorant of what is right but you continually follow what is wrong, falling finally into the abyss. Thus before you reach the edge of the precipice, make up your minds to change your tactics and not to waste your time aimlessly.

Take advantage of the teachings of the Heavenly Orators, study them with reverence and understanding, and you will at once see what unexpected gain you receive, both for yourself and for your brothers.

Time is a flowing spring of water which refreshes those who are thirsty, satisfies those who perceive it and leaves the vulgar to their ignorance, going in an opposite direction to what is of profit in their precious time.

Do not waste the blessings of time aimlessly because you lack the scales of measure and impartial judgment about what is necessary; for then inevitably you will find yourself in a difficult position, seeking to recover what has been lost, and not able to keep a hold on the necessary provisions of life. Time is a mirror of the past warning you about the future, so that you may pass through the present with complete order and harmony. Because of this you must not waste your time aimlessly.

Time is equivalent to a space for right action so that you can avoid every possible form of misunderstanding in this present life.

## THE MARCH OF THE DIVINE THE ANGEL RAPHAEL:

Men, my brethren, never pause to consider that the Divine marches through the ages. Here some explanation is needed. When I speak of the Divine I mean our whole Governing Authority in the Kingdom of the Lord. All the Leaders combined together act according to the wishes of the Lord. Every Leader has a responsible speciality with regard to the way he acts.

The Palace of the Lord gives directives to the Centre of the Spiritual Sun. From there these are conveyed to the various Councils, which are 13 in number and for which the Leaders are responsible.

The Centre of the Spiritual Sun is the chief Council of all, the Council of the Councils, and is regarded as the 14th Council, although we call it the Centre of the Spiritual Sun.

From this Centre the Leaders according to their rank march with great ease to the Palace of the Lord or the Station of the Supreme Authority. Those who enter this Station constitute the Divinity, with the Lord and Saviour of the human race on Earth at their head. Six have entered so far. He who is close to the Palace is Homer, who after dictating his work, "Man and Peace", will enter the Palace to receive his crown of glory. The ceremony will take place in the Council of the Lord, and Homer's crowing with Divinity will be one of the most splendid ceremonies that has taken place.

The Leader of the Centre of the Spiritual Sun is Plato, as a specialist, even though his grades are always increasing towards the heights of the Palace.

I the undersigned Raphael, Angel of the Lord, have the mission of interpreting the Words of the Teacher-Leaders so
